Access to Ireland's  
largest team of Consultant  
Cardiologists

# Mater Private Cardiac Transfer Service

## KEY BENEFITS FOR TRANSFERRING HOSPITALS

Significantly reduces costs to the public hospital system	Rapid access to cardiac procedures, nationwide:	Dublin 7 days per week	Cork 5 days per week
Reduces waiting lists for procedures and helps avoid penalties	Increases bed capacity for other patients	Enables timely patient discharge, reducing AVLOS	

## KEY BENEFITS FOR PATIENTS

### Zero cost to the patient

Door-to-door ambulance service and procedure costs covered by most private health insurers

### No insurance impact

No increase in subsequent annual insurance premium

### Convenient

Return to local public hospital once procedure completed

### Reassuring

Rapid access to cardiac procedures, nationwide:

Dublin: 7 days per week

Cork: 5 days per week

### Support

Dedicated Cardiac Transfer Liaison Team manages all arrangements

## KEY REASONS TO CHOOSE THE MATER PRIVATE CARDIAC TRANSFER SERVICE

### Access

to Ireland's largest team of Consultant Cardiologists and Specialist Cardiac Arrhythmia Service

### Experience

in managing over 1,000 patient transfers per year

### Un-matched resources:

8 Theatres, and 3 Cath Labs open 24/7

A simple two-step process for Transferring Hospital to enable patient access to Mater Private Cardiac Transfer Service. **A dedicated Mater Private Cardiac Transfer Team takes care of all other steps in the process.**

### 1 Transferring hospital contacts Mater Private Cardiac Transfer Team to request patient transfer

Tel: 1800 24 82 48  
Fax: 01 885 8150  
Email: [cardiology.transfer@materprivate.ie](mailto:cardiology.transfer@materprivate.ie)

✓ Insurance checked and confirmed by Mater Private team

✓ Patient discussed with Mater Private Consultant Cardiologist

✓ Transferring hospital contacted by Mater Private to arrange procedure time

### 2 Transferring hospital arranges ambulance pick-up to transfer patient to Mater Private

✓ Patient arrives at Mater Private Cath Lab and procedure completed

✓ Ambulance contacted by Mater Private to collect patient post-procedure

✓ If patient unfit to travel, transferring hospital contacted and patient admission to Mater Private organised by Mater Private

✓ Once patient is fit to travel, patient discharged by Mater Private and transferred by ambulance to original hospital

**For transfers or enquiries, please contact our dedicated Cardiac Transfer Team**
